

# Flyer Coverall and Gloves

## Flyer Coverall (Model 304)

Lyra is the first & only company to successfully produce NOMEX® fire - retardant flying coveralls as per military specification MIL- C - 83141A in Pakistan.

### Features of Flyer Coverall:

- » Rounded Collar
- » Pleated action back
- » 2" x 4" velcro name tag
- » Zipper sleeve pocket with cover
- » Two diagonal zipper breast pockets
- » Two-way main body zipper, two zipper thigh pockets
- » Two zipper lower calf pockets, two lower leg boot entry zippers
- » Survival knife pocket

Available in Tan and Sage Green colours

## Flyer Gloves (Model LPL/N-FG/01)

These genuine US Military-issue Nomex® Flyer's gloves offer superb dexterity and excellent flash and flame protection. They will not support a flame or melt, even after laundering. These gloves feature Grade A chrome-tanned sheepskin leather palm, giving excellent "feel" for flying, while providing your hands with the fire-resistant protection of Nomex®. Although these gloves are especially suited for aviators and aviation personnel, they are perfect for anyone who wants the ultimate in comfort, dexterity, and protection for their hands.

- » Conforms to USAF specs MIL- G - 81188A & MIL- DTL - 81188A

Available in Tan and Sage Green colours
